

Will Keating

B.COM (ECON, FIN; ONGOING)

Research Assistant

Will is a Research Assistant with Essential Economics. He is completing study in Economics and recently joined the firm to assist with analysis and client consultation. He has experience in data collection, database management and analysis, and community interaction.

BACKGROUND

Will is currently studying to attain a Bachelor of Commerce degree from the University of Melbourne, majoring in Economics and Finance.

He has a keen interest in the economics discipline as well as statistical analysis, and has previously worked over the Census period with the Australian Bureau of Statistics to gain insight into the collection of national data and to develop his personal communication skills in engaging with householders in the eastern suburbs.

At Essential Economics, Will is involved in analysis, mapping, and database management; he also supports the preparation and editing of reports and presentations.

Will has extensive experience in the retail industry and brings a calm and personable demeanour with him to consult with clients and the community on behalf of Essential Economics.
